

EAST AYRSHIRE COUNCIL

2009-10 Statistics Tables – Explanatory Notes and Commentary

Tables:

Attached are summary details of the complaints that the SPSO received and determined about your Council in 2009-10. Table 1 details the number of complaints (by our subject categories) received for your Council for 2008-09 and 2009-10, alongside the total of local authority complaints for these years. In previous years we've used this table to show the total of all contacts (enquiry calls and complaints) that we received about your council. This year we haven't included the enquiry calls, as feedback has shown that it's more meaningful for you if we concentrate on the actual complaints received. We recorded 50 complaints about the Council, compared to 26 in the previous year.

Table 2 shows the outcomes of complaints determined about your Council by the SPSO in 2009-10. Received and determined numbers do not normally tally exactly, as figures tend to include cases carried forward from the previous year.

Graph of prematurity rates: The anonymised graph shows, for each Council, the percentage of complaints that we received and determined as premature, against the national average in 2009-10 (55%). This represents a decrease on the 2008-9 average of 60%, which is to be welcomed. Figures have been rounded up or down to the nearest whole percentage.

We consider a complaint to be premature when it reaches us before the complainant has been through the full complaints process of your organisation. The graph does not reflect the number of premature complaints that we received about your Council, but shows how your Council, proportionately, compares against the average for Scottish local authorities. As last year, your Council is number 1 on the graph, well above the average. You'll see from Table 2 that the actual number of premature complaints for your Council was 39 out of a total of 52 complaints determined (75% of the total for your Council). The previous year's figure was 21 out of 25 (84% of the total for your Council). The proportion of premature complaints has therefore reduced against an increased number of complaints determined, although it still represents a particularly high level of premature complaints received about your Council.

NB We don't adjust our figures to mitigate the impact of housing stock transfer. It's evident, however, that there's a tendency for authorities that retain housing stock to receive more complaints and to fall higher within the prematurity graph than those that have undertaken stock transfer. This is to be expected given that housing complaints are usually the largest category of complaint and that there's a disproportionately high incidence of prematurity with housing complaints.

Reported Complaints and Recommendations

We did not investigate and report on any complaints about your Council in 2009-10.

.....

We hope that you find this summary information useful. If you have any enquiries about the statistics provided, please contact Annie White, SPSO Casework Knowledge Manager, on 0131 240 8843 or by emailing awhite@spsso.org.uk. Statistical reports are available on the SPSO website at: <http://www.spsso.org.uk/statistics/index.php>.
